

Integrated Care Online

Overview

I. About Integrated Care Online

The online community, Integrated Care Online by NextGen Healthcare, is the industry leader for integrated health clinical content, best practices, and strategic insights.

The online community provides:

- An online resource for information and case studies demonstrating successful interoperability among clinicians, hospitals and labs
- Executive insights on models and best practices to enhance integrated care
- Integrated, Fast, and Intuitive Mobile Results

By providing clear direction, Integrated Care Online Powered by NextGen Healthcare is driving informed evidence based practice in the field of behavioral health.
